Hydrobiologia
The International Journal on Limnology and Marine Sciences

Contents, Volume 364

Volume 364, Part I
Special Issue: **Sediment–Water Interaction 8**
Sub-Editor: **H.L. Golterman**

Preface and abbreviations used 1–2

Modelling the distribution of *Anabaena* and *Melosira* in a stratified river weir pool
by M. Bormans & S.A. Condie 3–13
Geochemistry of suspended and settling solids in two freshwater lakes
by A.A. Koelmans 15–29
Distribution and chemical fractionation of some heavy metals in bottom sediments of Lake Nasser
by S.M.N. Moalla, R.W. Awadallah, M.N. Rashed & M.E. Soltan 31–40
The response of a freshwater wetland to long-term 'low level' nutrient loads: nutrients and water budget
by M.Z. Moustafa, T.D. Fontaine, M. Guardo & R.T. James 41–53
Bacterial and phosphorus dynamics in profundal Lake Erken sediments following the deposition of diatoms: a laboratory study
by E. Törnblom & E. Rydin 55–63
The impact of *Chironomus plumosus* larvae on organic matter decay and nutrient (N, P) exchange in a shallow eutrophic lake sediment following a phytoplankton sedimentation
by K. Hansen, S. Mouridsen & E. Kristensen 65–74
The distribution of phosphate over iron-bound and calcium-bound phosphate in stratified sediments
by H.L. Golterman 75–81
A study of nutrient removal efficiency of *Phragmites mauritianus* in experimental reactors in Uganda
by S.B.K. Sekiranda & S. Kiwanuka 83–91

Technical Notes .....
The energy of the adsorption of o-phosphate onto ferric hydroxide
by J.C. Miltenburg & H.L. Golterman 93–97

KLUDO; PIPS No.: 169097 SPACKAP
364v.tex; 9/06/1998; 7:46; no v.; p.1

Presence of and phosphate release from polyphosphates or phytate phosphate in lake sediments
by H. Golterman, J. Paing, L. Serrano & E. Gomez 99–104

Volume 364, Part II

Foodborne uptake and sublethal effects of copper and zinc to freshwater snails
by D.K. Reed-Judkins, J.L. Farris, D.S. Cherry & J. Cairns, Jr. 105–118
Chromadoridae (Chromadorida: Nematoda) from the Indian Ocean: description of new and known species
by A.W. Muthumbi & M. Vincx 119–153
Chromadoridae (Chromadorida: Nematoda) from the Indian Ocean: difficulties in morphological identification of *Actinomena* Cobb, 1920 and *Rhips* Cobb, 1920
by A.W. Muthumbi & M. Vincx 155–167
Towards diagnostic biotic indices for river macroinvertebrates
by B.C. Chessman & P.K. McEvoy 169–182
Genetic variability in the European minnow, *Phoxinus phoxinus* (L.)
by G. Müller & P.I. Ward 183–188
Seasonal dynamics of denitrification activity in two water meadows
by T.E. Davidsson & L. Leonardson 189–198
Seasonal and spatial patterns in phytoplankton photosynthetic parameters in a tidal freshwater river
by R.C. Jones 199–208
Macroinvertebrate sampling methods for lowland Australian rivers
by P. Humphries, J.E. Growns, L.G. Serafini, J.H. Hawking, A.J. Chick & P.S. Lake .. 209–218
Lake typology based on the use of sediment alkanes in the east and west basins of Taihu Lake, China
by Qu Wenchuan, M. Dickman, Wang Sumin, Wu Ruijin, Zhang Pingzhong, Chen Jianfa & He Haijun 219–223
The effect of small-scale fluid motion on the green alga *Scenedesmus quadricauda*
by M.M. Hondzo, A. Kapur & C.A. Lembi 225–235

Note
Description of the male of *Pleuroxus wittsteini* Studer, 1878 (Anomopoda, Chydoridae) from Heard Island
by W. Hollwedel & H.J.G. Dartnall 237–242

Author index 243

Volume contents 245–246
